Instructor	Text Responses
	Question: Comments
Jappah	Bring about ideas of how women and gender are affected by society.
Jappah	I like the fact that we didn't have multiple choice quizzes I liked the writing essay portions and discussions.
Jappah	He broadened my horizons! I was somewhat unaware of what was happening in the world around me. I am more aware of historical events and what is currently happening around the world.
Jappah	He provided feedback on my posts and essays. The descriptions for assignments were clearly outlined.
Jappah	The way the course was set up was very helpful and allowed me to learn on my own and present my beliefs or views on different subjects. Definitely enjoyed this class!
Jappah	The instructor gave us as students, positive feedback and encouraged us to keep up the good work!
	Question: Improvement
Jappah	Doesn't need to. Is a great instructor!
Jappah	The summaries for each week were a bit confusing. They could be a little more outlined in a more organized fashiion.
Jappah	I think the course needs more current events/topics. It would be interesting to hear personal accounts from people around the world, TED talks, and the like. Overall, he was a great professor!

	Question: Comments
Jappah	You are very clear with instructions and made the material on mycourses readily available. I like that you take the time to send daily reminders even though students should take it upon themselves to keep up with due dates. I enjoyed this course and previous courses i took with you.
Jappah	The online class was organized very well and easy to follow. Overall a great course that forced me to think.
Jappah	Very simple format, especially helpful for students with a busier schedule. Gave feedback and grades in a timely manner. Responses and emails were thought-provoking
Jappah	This instructor kept the class very organized and created a lot of structure so we as the student's knew exactly what was expected of us. The information was not from an outdated textbook but from recent reliable sources which was nice not only for current knowledge but it allowed flexibility and cost control which was appreciated. He was also very good at giving feedback on the assignments.
Jappah	I think the reading material was a fairly interesting and the questions posed for discussion posts and essays we're excellent for making us think.
Jappah	The topics we discuss are very interesting, I learnt a lot of new issues that I never really considered. Also gives great feedback to posts and essays.
Jappah	Set schedule, very predictable and made it easy to keep on top of things.
Jappah	Stayed organized and consistent throughout the semester and sent us reminders when things were due.
Jappah	He did a wonderful job at giving feedback for each assignment in a reasonable amount of time. He also did a great job at making the subject matter interesting and engaging. I would defiantly recommend this class to my peers!
	Question: Improvement
Jappah	It would have been nice to have more interaction and information from the professor. It would also have been nice to have more class discussion through required responses to other people's blog posts that way we could have interacted more and through that learned more.
Jappah	It would have been helpful to have the question of the week posted on mycourses under that week, so the syllabus wouldn't have to be opened to complete the assignment.
Jappah	No complaints
Jappah	Vary the topics more. I felt like I was discussing similar things over and over again.

Instructor	Text Responses
	Question: Comments
Jappah	I like the format of the course and I learned so much in such a short time.
Jappah	Course was well organized and assignments were graded fairly.
Jappah	Provided great insight into the topic to further discussions, provided a great variety of topics related to the course, great structure to class
Jappah	He provided good feedback along with there being a very well laid out syllabus.
Jappah	Very knowledgeable and helps foster great discussions and provides good literature for the class assignments.
Jappah	Organized course and provided a timeline from the beginning.
Jappah	first I would just like to thank Dr.Jappah for a wonderful semester. The conversations that were initiated because of the posts were very eye opening and informative.
Jappah	Good feedback
Jappah	She gave us lots of feedback, especially as we went along with our weekly discussion posts which helped move along the conversations
Jappah	Very organized. Responded to questions and gave feedback quickly.
	Question: Improvement
Jappah	make grading rubric more clear so students know what is expected of them in a discussion post/replies to discussions
Jappah	Hard to find out what their expectations were of our assignments at first. I felt like she was a little random with the way she graded our assignments.
Jappah	You HAVE to respond to your emails more consistently.
Jappah	It was a little difficult to navigate the assignments and I had to keep scrolling through the syllabus to find what I was supposed to be doing/reading.
Jappah	Could work on flexibility. I turned a paper in a couple hours late and received an unusually low grade for the assignment even though I was a straight A student up to that point, literally.
Jappah	Give extra-credit opportunities.
Jappah	I think some of the links and readings were a bit long, but I can't think of much else to improve upon.
Jappah	Less writing assignments

Instructor	Text Responses
	Question: Comments
Jappah	This instructor is by far one of best instructors I've ever had. He is very knowledgeable, presents the material really clearly, and gives incredibly helpful feedback! Such a great experience.
Jappah	Always responded to submissions and blog posts.
Jappah	He gave great feedback and was very prompt. You can tell he is a very intelligent guy by his comments, and he went through at the end to give an overview of anything that we didn't catch in the assignment. Also, I appreciated the reminders. It is not that I would have forgotten, but it was nice to know whether it was an article or post, so I could plan accordingly.
Jappah	Communicated with us well even though that it was an online class.
Jappah	He was very flexible, which is honestly so welcomed and surprisingly hard to come by in other classes. He was easy to get into contact with through email. His updates through email were much appreciated, as were his responses to both the discussion posts and the papers.
	Question: Improvement
Jappah	I would have really appreciated a little more insight on the course subjects, especially the really dense ones. Maybe like a powerpoint of the things to look for in the first few readings. I considered dropping the class in the first few weeks because I thought I was in over my head. And when he attempted to simplify for the class, I just get even more confused because he is still speaking in a way that only someone from that field could understand.
Jappah	N/A Exactly what I would want.
Jappah	I honestly don't feel like this instructor needs to improve on anything as he is very organized and the class was really great.
Jappah	Some of the reading was a bit dense and difficult to to understand at first, as the professor has already acknowledged. Overall, I felt that the class was interesting, thought-provoking, and well taught. There could have been more room for actual discussion to take place, though I feel like that's more of a reflection on the students in the class than the professor.

Instructor	Text Responses
	Question: Comments
Jappah	Prof. Jappah is very knowledgeable in this material. Always gave supportive feedback.
Jappah	The structure of the class was amazing and easy to follow. It was very easy to get into a consistent routine for the semester.
Jappah	everything, he always gave feedback for assignments and essays, he always send us articles related to the subject of discussion per week
Jappah	Established a positive learning environment.
Jappah	Very knowledgable, very friendly
Jappah	Course material was outlined very well. Easy to find assignments. Didn't have to buy a textbook.
Jappah	The syllabus was very clearly laid out so I always knew what was due each week and when.
Jappah	He always sent us reminders before our assignments were due, which was really helpful for a busy student.
Jappah	He was very helpful in helping me improve how I was doing in the class. When I was struggling, I went to him to ask where I could improve and he was very helpful. Since then my grades have improved significantly.
Jappah	I feel like Dr. Jappah did a great job with this course. He made all of the topics interesting and but his own spin on things.
	Question: Improvement
Jappah	Perhaps giving different feedback. The feedback given seemed to be just another lecture on the subject, rather than trying to point us in a different direction or getting us to expand on what we were saying.
Jappah	Keep doing what they have been doing.
Jappah	keep the way of teaching, I do not think he need any improvements
Jappah	Need more helpful feedback toward my discussion boards in this course.
Jappah	Provide a clear outline on what he wants when we make posts. Can't really tell exactly what he wants.
Jappah	It took me a the first couple weeks to really figure out what he expected from the posts each week. Maybe in the syllabus more clearly state exactly what you want out of the posts not just that they need to be 100 words.
Jappah	I do not know. He did a really god job.
Jappah	I don't have much as to where he could improve.
Jappah	I feel like the replies to some of my essays/posts were just a basic copy/paste response that other students got, I'm not sure if this is true - just seemed like it.
